To the extent that public records then in the custody of the CONTRACTOR are needed for the COUNTY to respond to a request under the Act, as determined by the COUNTY, the CONTRACTOR agrees to make them promptly available to the COUNTY. If the CONTRACTOR considers any portion of any record provided to the COUNTY under this Agreement, whether in electronic or hard copy form, to be protected from disclosure under law, the CONTRACTOR shall clearly identify any specific information that it claims to be confidential or proprietary. If the COUNTY receives a request under the Act to inspect or copy the information so identified by the CONTRACTOR and the COUNTY determines that release of the information is required by the Act or otherwise appropriate, the COUNTY's sole obligations shall be to notify the CONTRACTOR (a) of the request and (b) of the date that such information will be released to the requester unless the CONTRACTOR obtains a court order to enjoin that disclosure pursuant to RCW 42.56.540. If the CONTRACTOR fails to timely obtain a court order enjoining disclosure, the COUNTY will release the requested information on the date specified.

The COUNTY has, and by this section assumes, no obligation on behalf of the CONTRACTOR to claim any exemption from disclosure under the Act. The COUNTY shall not be liable to the CONTRACTOR for releasing records not clearly identified by the CONTRACTOR as confidential or proprietary.  - 2. If they have reason to suspect that sexual abuse, physical assault, or neglect or other abuse of a child or vulnerable adult has occurred, they shall also immediately report to the appropriate law enforcement CONTRACTOR, DCYF, APS, and the County.
 - 3. "Immediately" means there should be no delay between staff awareness of the incident/allegation and making the report. Reporting should occur as soon as the

41. STANDARDS FOR PROGRAM ACCOUNTABILITY

The CONTRACTOR agrees to maintain program records and reports including statistical information and to make such records and reports available for inspection by the COUNTY in order for the COUNTY to be assured that program services remain consistent with the terms of this Agreement. The CONTRACTOR further agrees to provide such information as requested by the COUNTY for monitoring and evaluating within the time limitations established by the COUNTY.

42. SEVERABILITY

It is understood and agreed by the parties hereto that if any part, term or provision of this Agreement is held by the courts to be illegal, the validity of the remaining provisions shall not be affected. The rights and obligations of the parties shall be construed and enforced as if the Agreement did not contain the particular provisions held to be invalid. If it should appear that any provision hereof is in conflict with a Federal law, rule, regulation, or statutory provision of the State of Washington, said provision which may conflict therewith shall be deemed inoperative and null and void insofar as they may be in conflict therewith and shall be deemed modified to conform to such statutory provision.

43. SURVIVAL

The terms, conditions, and warranties contained in this Agreement that, by their sense and context, are intended to survive the completion of the performance, cancellation, or termination of this Agreement shall so survive.

Where required by state or federal law, the CONTRACTOR authorizes the COUNTY to withhold any taxes other than income taxes (i.e., Medicare). All compensation received by the CONTRACTOR will be reported to the Internal Revenue Service at the end of the calendar year in accordance with the applicable IRS regulations. It is the responsibility of the CONTRACTOR to

make the necessary estimated tax payments throughout the year, if any, and the CONTRACTOR is solely liable for any tax obligation arising from the CONTRACTOR's performance of this Agreement. The CONTRACTOR hereby agrees to indemnify the COUNTY against any demand to pay taxes arising from the CONTRACTOR's failure to pay taxes on compensation earned pursuant to this Agreement.

The COUNTY will pay sales and use taxes imposed on goods or services acquired hereunder as required by law. In lieu of termination, the Agreement may be amended to reflect the new funding limitations and conditions.
- E. *Termination for Other Grounds-* This Agreement may be terminated in whole or in part by either party hereto upon thirty (30) days advance written notice to the other party. COUNTY reserves the right to terminate this Agreement in whole or in part without the 30 days written notice in the event of a unilateral change made in the COUNTY's agreement with the Washington State Department of Social and Health Services or of a withdrawal or reduction in expected or actual funding from state, federal, or other sources.

Contract # 2024-2025 Behavioral Health WBHW

Exhibit A- Statement of Work (SOW)

Original

Summary/overview of services to be provided Uninsured/ Underinsured Treatment Funding

"Willapa Behavioral Health & Wellness (WBHW) is seeking funding to reduce the barriers to accessing behavioral health treatment for individuals who are uninsured or underinsured by their insurance provider.

Our frontier county has limited resources to serve individuals with diagnosed or undiagnosed behavioral health disorders, many of these individuals are in great mental and sometimes physical pain, and they often times have outside pressure from family or courts to participate in services, but do not have the necessary finances to pay for them. As a result, that individual often times spends more time isolated or involved with the legal and court systems than in being productive members of society.

By providing financial coverage to individuals regardless of their inability to pay, it reduces barriers and alleviates the financial burden and stress those individuals may experience.

WBHW was awarded funding for this project in 2022-2023 and found great help and relief in its award. Before receiving the county grant funding in 2022-2023 for uninsured/underinsured services, WBHW was writing off an average of \$12,000 of unpaid client services per month. As a small nonprofit agency, this type of a loss creates a great hardship. It is also indicative of the number of people that are in need of help, but do not have financial means to pay for their treatment. With the help of the 2022-2023 Pacific County grant funds, our write off amount was able to drop dramatically to an average of \$1063 per month."

Deliverables		
Description	Outcomes	By when
Identify clients in need of financial assistance by posting availability and verbally offering funding assistance for qualifying individuals when they inquire about services or mention financial hardship.	To be assigned by authorized official	Currently done, continuing
Research insurance eligibility and coverage to determine whether the client could be signed up for Medicaid or another insurance, or whether their insurance provider will do one time case agreement. Seek to get clients signed up for insurance where possible.	To be assigned by authorized official	Currently done, continuing
Collect from client two months' worth of bank statements, their last 3 paystubs, or their most recent W2's along with their annual income, dependents income, and size of family to determine financial eligibility. Determine whether they are within \$500 of qualifying for our sliding fee scale. (So many clients fall in the "don't make enough, but make too much" area and are unable to qualify for traditional assistance, but cannot afford treatment services. Most of the people who are really struggling are anywhere between \$40-\$500 over the limit to qualify for sliding fee scale. People who are actively working and trying to support themselves should not be penalized for making just enough to meet their basic needs.)	To be assigned by authorized official	Currently done, continuing
Enroll eligible clients for grant funding and track service use.	To be assigned by authorized official	Currently done, continuing

Assess clients physical, mental, and SUD needs. When more than just one program is needed, refer them to SUD, mental health, or primary care for whole person care regardless of insurance coverage to increase the likelihood of treatment success and client health. Summary/overview of services to be provided Peer Support Services

"The purpose of this project is to request continuation of supplemental funding for WBHW peer support services. WBHW was awarded this funding from Pacific County in 2022-2023 for this project and found it to be imperative in maintaining the level of peer support our clients require. This funding allows for any hours spent by the peer that are not billable to Medicaid to be supplemented by grant funding.

Peer Support Services are vital to increasing client participation in the continuum of care and long-term recovery services. However, many of the necessary functions provided by Peer Support are not covered by insurance providers due to the service's proactive nature of being offered before the person is an enrolled client. Tasks such as going to the hospital to meet a prospective client for a warm handoff, attending therapeutic courts to provide advocacy, but not direct client contact, or attending community meetings or programs in the interest of supporting systems that are fighting the issues of mental illness and drug abuse in our community.

Though peer support services do not offer enough billable hours to fully support the overhead associated with the position, WBHW feels it very important to retain Peer Support services, and without grant funding, does so at a loss which is hard for our small, nonprofit agency to absorb."

Summary/overview of services to be provided DV Treatment

The purpose of this project is to request a renewal of our 2022-2023 Supplemental Funding grant from Pacific County for Domestic Violence Perpetrator Treatment (DVIT).

DVIT is not covered by Medicaid, Medicare, or other insurances. It is paid out of the participant's pocket. Depending on the level of care for which the participant is assessed, their length of treatment will be a minimum of 6 months up to 1 year (or more if they do not remain in compliance).

The majority of participants do not have financial means to pay for their assessments and weekly groups. They then apply for the sliding fee scale which can take their payment down to \$10 per group or for an assessment. Since the majority of the participants are on the sliding fee scale and paying around \$10 - \$25 per service, the actual cost to WBHW of providing the assessment or conducting the group exceeds the amount collected from the group members. Before our 2022-2023 Pacific County grant funding, this caused monthly losses in the DVIT program up to \$4,500. This request is for supplemental funding that will make up the difference between what the client pays according to the sliding fee scale and the actual cost of the group or an assessment.

4.34 SITE SECURITY

- 4.35.2 Contractor is responsible for ensuring that all terms, conditions, assurances and certifications set forth in this Contract are included in any Subcontracts.
- 4.35.3 If at any time during the progress of the work HCA determines in its sole judgment that any Subcontractor is incompetent or undesirable, HCA will notify Contractor, and Contractor must take immediate steps to terminate the Subcontractor's involvement in the work.
- 4.35.4 The rejection or approval by the HCA of any Subcontractor or the termination of a Subcontractor will not relieve Contractor of any of its responsibilities under the Contract, nor be the basis for additional charges to HCA.
- 4.35.5 HCA has no contractual obligations to any Subcontractor or vendor under contract to the Contractor. Contractor is fully responsible for all contractual obligations, financial or otherwise, to its Subcontractors.

 - i. Duty to Protect PHI. Business Associate must protect PHI from, and will use appropriate safeguards, and comply with Subpart C of 45 C.F.R. Part 164, Security Standards for the Protection of Electronic Protected Health Information, with respect to ePHI, to prevent the unauthorized use or disclosure of PHI for as long as the PHI is within its possession and control, even after the termination or expiration of this Contract.
 - ii. Minimum Necessary Standard. Business Associate will apply the HIPAA Minimum Necessary standard to any use or disclosure of PHI necessary to achieve the purposes of this Contract (45 C.F.R. § 164.514(d)(2) through (d)(5)).
 - iii. Disclosure as Part of the Provision of Services. Business Associate will only use or disclose PHI as necessary to perform the services specified in this Contract or as required by law and will not use or disclose such PHI in any manner that would violate Subpart E of 45 C.F.R. 164, Privacy of Individually Identifiable Health Information, if done by Covered Entity, except for the specific uses and disclosures set forth below.

- iv. Use for Proper Management and Administration. Business Associate may use PHI for the proper management and administration of the Business Associate or to carry out the legal responsibilities of the Business Associate.

Business Associate may disclose PHI for the proper management and administration of Business Associate, subject to HCA approval, or to carry out the legal responsibilities of Business Associate, provided the disclosures are required by law, or Business Associate obtains reasonable assurances from the person to whom the information is disclosed that the information will remain confidential and used or further disclosed only as required by law or for the purposes for which it was disclosed to the person, and the person notifies Business Associate of any instances of which it is aware in which the confidentiality of the information has been breached.
- vi. Impermissible use or Disclosure of PHI. Business Associate must report to the contact identified in subsection 11.1, in writing, all uses or disclosures of PHI not provided for by this Contract within one business day of becoming aware of the unauthorized use or disclosure of PHI, including Data Breaches of unsecured PHI as required at 45 C.F.R. § 164.410, Notification by a Business Associate, as well as any Security Incident of which it becomes aware. Upon request by HCA, Business Associate will mitigate, to the extent practicable, any harmful effect resulting from the impermissible use or disclosure.
- vii. Failure to Cure. If HCA learns of a pattern or practice of Business Associate that constitutes a violation of the Business Associate's obligations under the terms of this Contract and reasonable steps by the Business Associate do not end the violation, HCA may terminate this Contract, if feasible. In addition, if Business Associate learns of a pattern or practice of its Subcontractors that constitutes a violation of the Business Associate's obligations under the terms of their contract and reasonable steps by Business Associate do not end the violation, Business Associate must terminate the Subcontract, if feasible.
- viii. Termination for Cause. Business Associate authorizes immediate termination of this Contract by HCA, if HCA determines that Business Associate has violated a material term of this Business Associate Agreement. HCA may, at their sole option, offer Business Associate an opportunity to cure a violation of this Business Associate Agreement before exercising a termination for cause.
- ix. Consent to Audit. Business Associate must give reasonable access to PHI, its internal practices, records, books, documents, electronic data, and all other business information received from, or created or received by Business Associate on behalf of, HCA to the Secretary of DHHS and/or to HCA for use in determining compliance with HIPAA privacy requirements.

 - 2. Return to HCA or destroy the remaining PHI that the Business Associate or any Subcontractors still maintain in any form;
 - 3. Continue to use appropriate safeguards and comply with Subpart C of 45 C.F.R. Part 164, Security Standards for the Protection of Electronic Projected Health Information, with respect to ePHI to prevent use or disclosure of the PHI, other than as provided for in this Section, for as long as Business Associate or any Subcontractors retain the PHI.
 - 4. Not use or disclose the PHI retained by the Business Associate or any Subcontractors other than for the purposes for which such PHI was retained and subject to the same conditions set out in subsection 11.1, Use and Disclosure of PHI, that applied prior to termination; and
 - 5. Return to HCA or destroy the PHI retained by Business Associate, or any Subcontractors, when it is no longer needed by Business Associate for its proper management and administration or to carry out its legal responsibilities.

- G. **“Unique User ID”** means a string of characters that identifies a specific user and which, in conjunction with a password, passphrase, or other mechanism, authenticates a user to an information system.

3. Data Transmission

- A. When transmitting HCA’s Confidential Information electronically, including via email, the Data must be encrypted using NIST 800-series approved algorithms (<http://csrc.nist.gov/publications/PubsSPs.html>). This includes transmission over the public internet.

- B. When transmitting HCA's Confidential Information via paper documents, the Contractor must use a Trusted System and must be physically kept in possession of an authorized person.

4. Protection of Data

The Contractor agrees to store and protect Confidential Information as described:

A. Data at Rest:

- i. Data will be encrypted with NIST 800-series approved algorithms. Encryption keys will be stored and protected independently of the data. Access to the Data will be restricted to Authorized Users through the use of access control lists, a Unique User ID, and a Hardened Password, or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Systems which contain or provide access to Confidential Information must be located in an area that is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.

B. Data stored on Portable/Removable Media or Devices:

- i. Confidential Information provided by HCA on Removable Media will be encrypted with NIST 800-series approved algorithms. Encryption keys will be stored and protected independently of the Data.

 - c) Keeping devices in locked storage when not in use;
 - d) Using check-in/check-out procedures when devices are shared;
 - e) Maintain an inventory of devices; and

- C. Ensure that when being transported outside of a Secured Area, all devices with Data are under the physical control of an Authorized User.

- D. Paper documents. Any paper records containing Confidential Information must be protected by storing the records in a Secured Area that is accessible only to authorized personnel. When not in use, such records must be stored in a locked container, such as a file cabinet, locking drawer, or safe, to which only authorized persons have access.

5. Data Segregation

HCA's Data received under this Contract must be segregated or otherwise distinguishable from non-HCA Data. This is to ensure that when no longer needed by the Contractor, all of HCA's Data can be identified for return or destruction. It also aids in determining whether HCA's Data has or may have been compromised in the event of a security breach.

- A. HCA's Data must be kept in one of the following ways:

- i. on media (e.g. hard disk, optical disc, tape, etc.) which will contain only HCA Data; or
 - ii. in a logical container on electronic media, such as a partition or folder dedicated to HCA's Data; or
 - iii. in a database that will contain only HCA Data; or
 - iv. within a database and will be distinguishable from non-HCA Data by the value of a specific field or fields within database records; or
 - v. when stored as physical paper documents, physically segregated from non-HCA Data in a drawer, folder, or other container.
- B. When it is not feasible or practical to segregate HCA's Data from non-HCA data, then both HCA's Data and the non-HCA data with which it is commingled must be protected as described in this Attachment.
- C. Contractor must designate and be able to identify all computing equipment on which they store, process and maintain HCA Data. No Data at any time may be processed on or transferred to any portable storage medium. Laptop/tablet computing devices are not considered portable storage medium devices for purposes of this Contract provided it is installed with end-point encryption.

6. Data Disposition

- A. Consistent with Chapter 40.14 RCW, Contractor shall erase, destroy, and render unrecoverable all HCA Confidential Data and certify in writing that these actions have been completed within thirty (30) days of the disposition requirement or termination of this Contract, whichever is earlier. At a minimum, media sanitization is to be performed according to the standards enumerated by NIST SP 800-88r1 Guidelines for Media Sanitization.
- B. For HCA's Confidential Information stored on network disks, deleting unneeded Data is sufficient as long as the disks remain in a Secured Area and otherwise meet the requirements listed in Section 3, above. Destruction of the Data as outlined in this section of this Attachment may be deferred until the disks are retired, replaced, or otherwise taken out of the Secured Area.

7. Network Security

Contractor's network security must include the following:

- A. Network firewall provisioning;
- B. Intrusion detection;
- C. Quarterly vulnerability assessments; and
- D. Annual penetration tests.

8. Application Security

Contractor must maintain and support its software and subsequent upgrades, updates, patches, and bug fixes such that the software is, and remains secure from known vulnerabilities.

9. Computer Security

Contractor shall maintain computers that access Data by ensuring the operating system and software are updated and patched monthly, such that they remain secure from known vulnerabilities. Contractor computer device(s) must also be installed with an Anti-Malware solution and signatures updated no less than monthly.

10. Offshoring

- A. Contractor must maintain all hardcopies containing Confidential Information only from locations in the United States.
- B. Contractor may not directly or indirectly (including through Subcontractors) transport any Data, hardcopy or electronic, outside the United States unless it has advance written approval from HCA.

Attachment C: HCA Small Numbers Standard

1. Why do we need a Small Numbers Standard?

It is the Washington State Health Care Authority's (HCA) legal and ethical responsibility to protect the privacy of its clients and members. However, HCA also supports open data and recognizes the ability of information to be used to further HCA's mission and vision. As HCA continues down the path of Data Governance maturity, establishing standards such as this is key in helping HCA analysts and management meet the needs of external data requestors while maintaining the trust of our clients and members and complying with agency, state and federal laws and policies.

Publishing data products that include small numbers creates two concerns. As a reported number gets smaller, the risk of re-identifying an HCA client or member increases. This is especially true when a combination of variables are included in the data product to arrive at the small number (e.g. location, race/ethnicity, age, or other demographic information).

Small numbers can also create questions around statistical relevance. When it comes to publicly posting data products on HCA's internet site, or sharing outside the agency, the need to know the exact value in a cell that is less than 11 must be questioned.

As the agency moves away from traditional, static reports to a dynamic reporting environment (e.g. Tableau visualizations), it is easier for external data consumers to arrive at small numbers. Further, those external consumers have an increasing amount of their own data that could be used to re-identify individuals. As a result, more rigor and a consistent approach needs to be in place to protect the privacy of HCA's clients and members. Until now, some HCA data teams have elected to follow small numbers guidelines established by the Department of Health, which include examples of suppression methods for working with small numbers. HCA is now establishing its own standard, but is planning to work with DOH and other agencies dealing with healthcare data to try and develop a consistent small numbers methodology at a statewide level.

2. Scope

HCA often uses Category 4 data to create summary data products for public consumption. This Standard is intended to define one of the requirements for a summary data product to be considered Category 1. Specifically, it is intended to define the level of suppression that must be applied to an aggregated data product derived from Category 4 data for the data product to qualify as Category 1. Category 1 products are data products that are shared external to the agency, in large part those products that are posted on HCA's Internet website (www.hca.wa.gov). The primary scope of this Standard is for those data products posted publicly (e.g. on the website), or, shared as public information.

The following are examples of when this Standard **does not** apply to data products are:

- A. Those shared directly with an external entity outside HCA, the Standard suppression of small numbers would not be required. However, you should notify the recipient that the data products contain sensitive information and should not be shared or published.
- B. Those exchanged under a data share agreement (DSA) that will not be posted or shared outside the Contractor.
- C. Those created for HCA-only internal use.

This standard does not supersede any federal and state laws and regulation.

3. Approach

In 2017, an impromptu workgroup was formed to tackle the issue of small numbers and determine what the general approach for handling data products that contain them would be. This initial effort was led by the agency's Analytics, Interoperability and Measurement (AIM) team who had an immediate need for guidance in handling and sharing of data products containing small numbers. The result of that work was a set of Interim Small Numbers Guidelines, which required suppression of cells containing values of less than 10. In addition, data products that contain small numbers are considered Category 2 under HCA's Data Classification Guidelines.

In spring 2018, a new cross-divisional and chartered Small Numbers Workgroup was formed to develop a formal agency standard. Representatives from each of the major HCA divisions that produce data and analytic products were selected. The charter, complete with membership, can be found here (available to internal HCA staff only). The Workgroup considered other state agency standards, and national standards and methods when forming this standard. The Workgroup also consulted business users and managers to determine the potential impact of implementing a small numbers suppression standard. All of this information was processed and used to form the HCA Small Numbers Standard.

4. State and National Small Numbers Standards Considered

When developing these standards, HCA reviewed other organizations' small numbers standards at both a state and federal level. At the state level, DOH recently published a revised Small Numbers Standard, which emphasizes the need for suppression for both privacy concerns and statistical relevance. HCA also convened a meeting of other state agencies to discuss their approach and policies (if any) around Small Numbers. Feedback from that convening was also taken into consideration for this Standard as well.

Federal health organizations such as the Centers for Disease Control and Prevention (CDC) and the National Center for Health Statistics (NCHS) also maintain small numbers standards. HCA's federal oversight agency and funding partner, the Centers for Medicare and Medicaid Services (CMS) adopts suppression of any cell with a count of 10 or less.

5. WA Health Care Authority Small Numbers Standard

Any HCA external publication of data products are to be compliant with both HIPAA and Washington State privacy laws. Data products are not to contain small numbers that could allow re-identification of individual beneficiaries. HCA analysts are to adhere to the following requirements when developing Category 1 data products for distribution and publication. Category 1 data is information that can be released to the public. These products do not need protection from unauthorized disclosure but do need integrity and availability protection controls. Additionally, all contractors (state and private) that use HCA's data to produce derivative reports and data products are required to adhere to this standard as well. HCA's Contracts team will ensure that proper contractual references are included to this and all HCA Data Release and Publishing Standards. The requirements discussed herein are not intended for Category 2, Category 3, or Category 4 data products.

6. HCA's Small Number Standard:

- A. There are no automatic exemptions from this standard
- B. (See Exception Request Process section below)
- C. Standard applies for all geographical representations, including statewide.
- D. Exceptions to this standard will be considered on a case-by-case basis (see Exception Request Process section later in this document for more information).

- E. Ensure that no cells with $0 < n < 11$ are reported ($0 < n < 11$ suppressed)
- F. Apply a marginal threshold of 1 - 10 and cell threshold of 1 - 10 to all tabulations
- G. ($0 < n < 11$ suppressed).
- H. To protect against secondary disclosure, suppress additional cells to ensure the primary suppressed small value cannot be recalculated.
- I. Suppression of percentages that can be used to recalculate a small number is also required.
- J. Use aggregation to prevent small numbers but allow reporting of data. Age ranges are a very good example of where aggregation can be used to avoid small numbers but avoid suppressing data (see example below).

7. Small Numbers Examples

A. Example (Before Applying Standard)

Client Gender	County	Accountable Community of Health (ACH)	Statewide
Male	6	8	14
Female	11	15	26
TOTAL	17	23	40

B. Example (After Applying Standard)

Client Gender	County	ACH	Statewide
Male	--- ¹	---	14
Female	11	15	26
TOTAL	---	---	40

¹In order to protect the privacy of individuals, cells in this data product that contain small numbers from 1 to 10 are not displayed.

The above examples show in order to comply with the standard, analysts must not only suppress directly those cells where $n < 11$, but also in this case secondary suppression is necessary of the county and ACH totals in order to avoid calculation of those cells that contained small numbers.

C. Example (Suppression with no aggregation)

Age Range	County	ACH	Statewide
0-3	5 (would be suppressed)	8 (would be suppressed)	13 (would be suppressed)
4-6	7 (would be suppressed)	18	25 (would be suppressed)
	15	23	38

10-12	24	33	57
TOTAL	51 (would be suppressed)	82 (would be suppressed)	133

D. Example (Using aggregation instead of suppression)

Age Range	County	ACH	Statewide
0-6	12	26	38
7-9	15	23	38
10-12	24	33	57
TOTAL	51	82	133

The above examples provide guidance for using aggregation to avoid small number suppression and still provide analytic value to the end user. Aggregation is an excellent method to avoid presenting information with many holes and empty values.
