REVISED STATEMENT OF WORK

Title

Installation of All Hazards Alert Broadcast (AHAB) Warning Siren(s) within Pacific County:

The Recipient agrees to allow the installation of the All Hazards Alert Broadcast (AHAB) Warning Siren in the following locations within Pacific County:

AHAB Siren Name	AHAB Siren Location (LAT/LONG)	Point of Contact for Siren Location (Name, Phone Number, Email)
NA	NA	NA

The Department will provide all maintenance and parts to the controller box and satellite communications systems. The Department agrees to stock and maintain the standard repair components as suggested by the manufacturer to expedite repairs.

All Hazards Alert Broadcast (AHAB) Warning Siren(s) requirements:

Upon satisfactory installation, the siren will become the property of the Recipient. AC power hook-up will be provided by the County to the siren but will not be hooked-up until the system has been installed on the pole. Continued monthly AC power usage charges will be required and provided through Recipient unless power is able to tie into existing electrical service. Battery replacement is the responsibility of the Recipient. Upon satisfactory installation, the Recipient will assume responsibility for: the physical security of the siren, for the coordination of the restoration of electrical power to the siren, for the routine testing of the siren via local radio network or internet, for the prompt reporting of any routine testing problems to the Department, and for access to the siren with a bucket truck and weed control within a 15-foot radius of the siren. If the siren will be installed in a locked area, the Recipient will provide 24-hour access and/or issue a key to the Washington Military Department Telecommunications Engineer to allow access to the area for times employees are unavailable to open the compound for needed work.

The Department will send out a daily status report to Recipient, routinely test the siren with the satellite control system, automatically monitor alarms, silent test the siren, immediately report any intrusions to the Recipients Primary Law Enforcement agency, and troubleshoot and repair any major siren malfunctions as rapidly as possible (except for battery failures). The Department will schedule trained and certified siren technicians to troubleshoot and make repairs. The Recipient will be kept informed of all actions taken during repair. The Department agrees to maintain and fund the satellite access contracts with appropriate satellite providers.

Upon notification by the Department, the Recipient has 48 hours to resolve any issue(s) with the batteries, AC power, physical security, and/or access to the Siren(s). Failure by the Recipient to fulfill this requirement will result in a management letter that may adversely impact future decision-making regarding the purchasing and installation of AHAB Siren(s) within the Recipient's jurisdiction.

Active All Hazards Alert Broadcast (AHAB) Warning Siren(s) within Pacific County:

The Recipient currently hosts All Hazards Alert Broadcast (AHAB) Warning Siren(s) in the following locations within Pacific County:

Pacific County participation regarding All Hazards Alert Broadcast (AHAB) Warning Siren(s)' activation, testing, and drills:

The Recipient agrees that the triple controlled siren will be activated by either the Department or the Recipient. The Recipient agrees to use the siren for only routine testing and real emergency incidents. The Recipient activates the siren with their local radio system, or internet. The Recipient agrees to participate in all statewide siren tests/drills whether it be monthly tests or the annual ShakeOut drill. The Recipient authorizes the Department to activate the siren and transmit a Tsunami Warning message after receiving a Tsunami Warning alert from the National Weather Service that is expected to affect the Washington State coast.

The tsunami warning audio message in English is as follows: "The National Weather Service has issued a tsunami warning. A tsunami can create strong waves, dangerous flooding and powerful currents. If you are in a coastal area you are at risk and must move to higher ground or inland now. Do not return until directed to do so. Tune to local media for additional information after you move to higher ground or inland."

Failure by the Recipient to fulfill this requirement will result in a management letter that may adversely impact future decision-making regarding the purchasing and installation of AHAB Siren(s) within the Recipient's jurisdiction.

Requirements of Pacific County prior to installation:

The Recipient is required to complete the AHAB Site Survey Information Template (Attachment 1) prior to installation and obtain all necessary permits before installation.
