## Chapter 6: Property and Equipment

**Acquisition of Property and Equipment.** Recipients/sub recipients are required to be prudent in the acquisition and management of property with Federal funds. Expenditure of funds for the acquisition of new property, when suitable property required for the successful execution of projects is already available within the recipient or sub-recipient organization, will be considered an unnecessary expenditure.

Note: Equipment purchased using funds made available under Federal grants shall be year 2000 compliant and shall be able to process all time/date data after December 31, 1999.

**Screening.** Careful screening should take place before acquiring property in order to ensure that it is needed with particular consideration given to whether equipment already in the possession of the recipient/sub-recipient organization can meet identified needs. While there is no prescribed standard for such review, recipient/sub-recipient procedures may establish levels of review dependent on factors such as the cost of the proposed equipment and the size of the recipient or sub-recipient organization. The establishment of a screening committee may facilitate the process; however, a recipient or sub-recipient may utilize other management techniques which it finds effective as a basis for determining that the property is needed and that it is not already available within the recipient's organization.

The awarding agency's program monitors must ensure that the screening referenced above takes place and that the recipient/sub-recipient has an effective system for property management. Recipients/sub-recipients are hereby informed that if the awarding agency is made aware that the recipient/sub-recipient does not employ an adequate property management system, project costs associated with the acquisition of the property may be disallowed.

**Loss, Damage, or Theft of Equipment.** Recipients/sub-recipients are responsible for replacing or repairing the property which is willfully or negligently lost, stolen, damaged, or destroyed. Any loss, damage, or theft of the property must be investigated and fully documented and made part of the official project records.

### Real Property Acquired with Formula Funds.

1. **Land Acquisition.** Block/formula funds CANNOT be used for land acquisition.
2. **Title.** Subject to the obligations and conditions set forth in the award, title to real property acquired under an award or sub-award vests, upon acquisition, in the recipient or sub-recipient.
3. **Use of Real Property.** The recipient and its sub-recipients may use real property acquired, in whole or in part, with Federal funds for the authorized purposes of the original grant or sub-award as long as needed for that purpose. The sub-recipients shall maintain an inventory report which identifies real property acquired, in whole or in part, with block or formula funds. The recipient or sub-recipient shall not dispose of or encumber its title or other interests.
4. **Disposition.** The sub-recipient shall obtain approval for the use of the real property in other projects when the sub-recipient determines that the real property is no longer needed for the original grant purposes. Use in other projects shall be limited to those under other Federally-sponsored projects or programs that have purposes consistent with those authorized for support by the State. When the real property is no longer needed as provided above, the sub-recipient shall request disposition instructions from the State. The State shall exercise one of the following:

- a. Direct the real property to be transferred to another sub-recipient or a criminal justice activity needing the property, provided that use of such real property is consistent with those objectives authorized for support by the State.
- b. Return all real property furnished or purchased wholly with Federal funds to the control of the awarding agency. In the case of real property purchased in part with Federal funds, the sub-recipient may be permitted to retain title upon compensating the awarding agency for its fair share of the property. The Federal share of the property shall be computed by applying the percentage of the Federal participation in the total cost of the project for which the property was acquired to the current fair market value of the property. In those instances where the sub-recipient does not wish to purchase real property originally purchased in part with Federal funds, disposition instructions shall be obtained from the awarding agency.
