Shoreline Planning Committee
- Orientation -

1. Quick review of the SMP Update Process
2. Understanding the Roles of All Participants in the Pacific County SMP Update Process
3. Overview of Public Outreach Sessions

1. Quick Review of the SMP Update Process

1. Preliminary Shoreline Jurisdiction
2. Shoreline Inventory, Analysis, & Characterization Report
3. Restoration Plan
4. Draft Shoreline Management Plan
5. Cumulative Impacts Analysis/No Net Loss Report
6. Local Adoption
7. State Review & Approval

2. Understanding the Roles of All Participants in the Pacific County SMP Update Process

- Citizens*
- Shoreline Planning Committee
- Planning Commission
- Board of Commissioners
- Department of Ecology
- Consultants*
- County Staff*
- Project Facilitator*

Role of Citizens
- Cornerstone of the SMP update process
- Consistent participant throughout the process
- Provides overall guidance for SMP development
- Reviews and comments on SMP products

Role of Shoreline Planning Committee
- Hosts & listens in at public outreach events
- Uses citizen input, science, & state law to work with consultant & staff to create proposed goals, policies, & regulations for a draft SMP
- Works together to find common ground when conflicts arise
- Prepares & forwards a recommendation for a draft SMP to the Planning Commission

Role of Planning Commission
- Provides a second layer of review on the draft SMP
- Examines the draft SMP for consistency with Comprehensive Plan & Development Regulations
- Resolves inconsistencies with SMP / creates docket for Comprehensive Plan & Development Regulations
- Provides another opportunity for citizen comment
- Forwards a recommendation to the Board of Commissioners
Role of Board of Commissioners
• Provides another layer of review on the draft SMP
• Provides another opportunity for citizen comment
• May make changes to draft SMP
• Adopts a final draft SMP & forwards it to Dept. of Ecology for review

Role of Department of Ecology
• Provides review of the draft SMP for consistency with state law
• Provides another opportunity for citizen comment
• If inconsistencies crop up, negotiates changes to draft SMP with Board of Commissioners
• Approves a final SMP for county to adopt

Role of Project Consultants
• Works with Shoreline Planning Committee and staff to prepare draft SMP and related reports used in the update process
• Consultant products reviewed by all participants

County Staff
• Coordinates the SMP update process and manages the grant with Dept. of Ecology
• Local connection point with all participants in the SMP update process

Project Facilitator
• Neutral voice – provides no content
• Designs & facilitates the public outreach process
• Provides structure for community meetings so everyone’s voice is heard that contribute to productive discussions

3. Public Outreach Sessions
• Purpose – to collect citizen values, ideas, and opinions about shoreline management
• Shoreline Planning Committee involvement:
  – Chance to listen to your community
  – Focus on your interests
  – Carry what you hear back to the whole Shoreline Planning Committee
• You are the facilitator’s advisor on design and getting the word out!
3. **Public Outreach Sessions**

- Shoreline Inventory, Analysis, & Characterization Report Open House
- Creating a Vision for Pacific County Shorelines
- Special Shoreline Workshops:
  - Agriculture
  - Aquaculture
  - Forestry
  - Shoreline residential development
  - Public access & recreation
  - Conservation & critical areas
  - Coastal marine uses
  - Commercial & Industrial shoreline uses
  - Transportation & infrastructure
  - Mining activities
  - Flood hazards
  - Shoreline modification & in-water structures
